Quality isn't just a Catchphrase It's Our Heritage

With over 40 years of excellence in crafting fine window furnishings, Norman®'s quality has made it famous. It's what drives Norman® to innovate. And why you can see it in every detail. Few companies will farm their own wood, make their own components, or weave their own cords. At Norman®, everything matters. And anything is possible.

Norman® strives to exceed the highest industry standards. That's why Norman® is focused on leading the industry in quality, service, selection and value. From patented performance and safety enhancing components, to award-winning product designs, to socially responsible processes in manufacturing and forestry, Norman® has a history of defining the future.

AVAILABLE COLORS

PALLADIAN SHELF

The innovative solution creates a decorative mounting surface inside an arched window so that our blinds can be installed in the resulting squared opening. Palladian shelves are an elegant way to split the curved part and squared part on arched window openings.

KEYSTONES

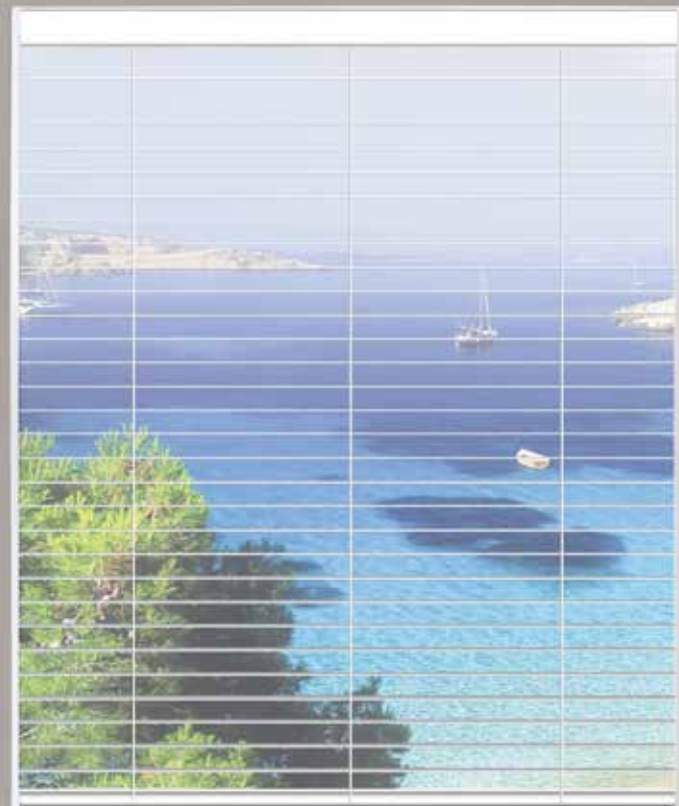

Choose a matching keystone to join two valances together or to create a decorative touch

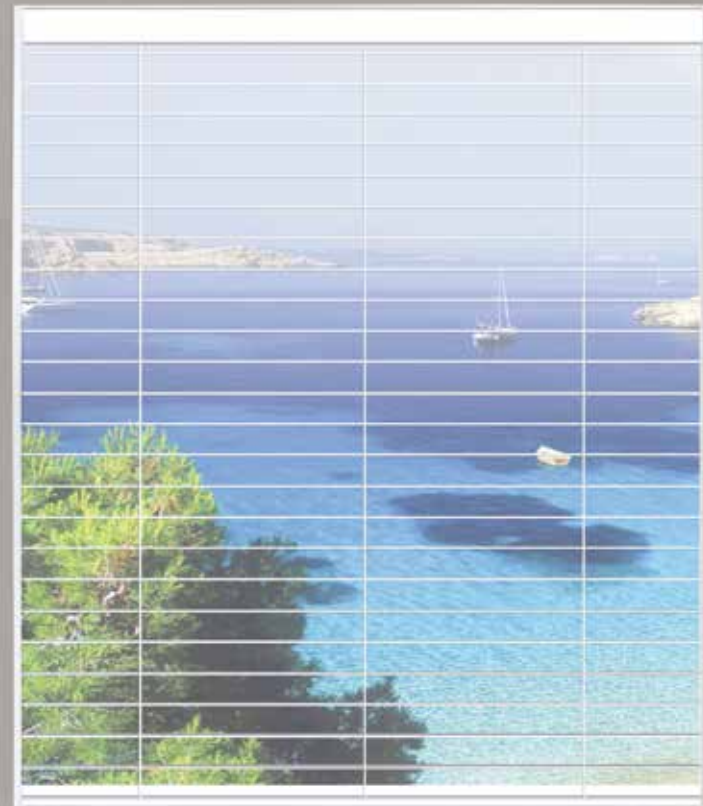

CHOOSE YOUR VIEW

Choose from 2" and 2 ½" slats. For most, it's just a matter of preference, but smaller slats are ideal for smaller windows. But they also mean more slats per window, and when the blind is open, your outside view won't seem as open due to the number of slats. For a more open-view appearance, choose 2 ½" slats.

2" SLATS

2 ½" SLATS

SAFETY

INGENUITY FOR WHAT MATTERS MOST

Sit back and relax. Put your mind at ease. Norman® blinds are made to be enjoyed by everyone. Our products feature child-safe designs, utilize non-toxic materials and meet stringent international safety standards.

“BEST FOR KIDS” CERTIFIED CORDLESS

Experience a new level of performance, safety, and flawless daily operation. Norman® cordless blinds are “Best for Kids” certified and comply with the latest ANSI/WCMA standards. Norman® cordless blinds are more level when raised, won't cause slat-related problems such as slat-shift, and built with proprietary technology to assure easy-pull adjustment.

SAFE PAINT & LEAD-SAFE

Feel rest assured. All Norman® window furnishings are free from lead and soluble heavy metals such as cadmium and arsenic.

SAFETY CORD RELEASE DEVICE FOR CORDED BLINDS

Designed to protect young children, infants and pets from the risk of cord entanglements. The device not only consolidates all cords but deploys if something gets caught in them.

SINGLE CORD LIFT FOR CORDED BLINDS

The Norman® single cord lift elegantly consolidates all cords for easy operation, extra safety and streamlined appearance.

SAFETY CORD RELEASE DEVICE FOR CORDED BLINDS

Light comes through between slats on traditional blinds since they cannot close completely. SmartPrivacy® helps seal these gaps with slat-to-slat coverage.

- Exclusive slat-to-slat coverage with closure.
- No visible route holes when closed.
- Tighter closure better seals the gaps.

SMARTRELEASE™

AUTOMATIC LOWERING

Work smarter – not harder. The SmartRelease™ feature found in Euro Style Wood Blinds enables the “release” or lowering of the blind with a gentle pull. It glides to a closed position automatically - smoothly, quietly and effortlessly.

CORDLESS

CHOOSE LIFT SYSTEM

CORDED with EASY LIFT INSTA-LOCK®

EASY LIFT INSTA-LOCK®

TRADITIONAL CORD LOCK

Say goodbye to the fickle and clunky operating experience of the common cord lock. Our reinvented and patented system not only reduces the pull force required to operate the blind, but also makes it easier to release or lower the blind, while allowing you to lock the blind at any position or angle, effortlessly, without frustrating tugging – even on corner windows.

GREEN

EARTH FRIENDLY & NATURALLY BEAUTIFUL

It's a mission that many of us all embark. To relish the finer things while making sustainable choices that lead to a healthier tomorrow. At Norman® we've taken this credo to heart. Our premium Phoenix Wood® originates from "miracle" forests that rejuvenate every 7 years after harvest. While the premium hardwood is exquisitely grained and durable, it is also a sustainable choice.

NORMANDY® WOOD BLINDS

QUARTER SAWN SLATS

Unlike cheaper plain sawn slats that are cut straight-across, our quarter sawn slats are milled from a quartered log. Each Normandy® slat is cut perpendicular to the grain for not only more consistent and straight line graining, but also to add stability for better resistance to cupping, warping, heat or moisture.

ELEGANT BOTTOM RAIL

The bottom rail cap in Normandy® blinds is incorporated into the rail to eliminate the protrusion that can damage the window sill over time.

OSMO FINISH

Osmo is a safe, natural and eco-friendly stain-finish made from natural plant oils and vegetable waxes, free from common paint and stains' harmful substances. In a palette of on-trend colors, Osmo amplifies wood's natural graining for intensely character-rich slats.* Osmo penetrates deeply, for durability and rich color that goes beyond the surface, and protection against degradation over time.

* Because of Osmo's properties, the color of final products may vary slightly from samples due to wood's natural variations.
